— Why PESITM —

PES Institute of Technology & Management (PESITM) is chosen for its focus on holistic development, which includes strong academics, industry-relevant skills, and holistic development through extracurriculars. Key reasons include its accreditations, industry tie-ups for internships and placements, well-equipped infrastructure, and a disciplined academic environment. The institute also emphasizes creating well-rounded professionals and leaders with a combination of theoretical knowledge and practical experience.

Academic and career benefits

- Accreditations and affiliation: The institute is accredited by NBA and NAAC and is affiliated with Visvesvaraya Technological University (VTU).
- Industry-focused curriculum: Its undergraduate and postgraduate programs are designed to align with industry standards and societal needs.
- Industry partnerships: Collaborations with industry leaders provide students with opportunities for internships, collaborative research, and enhanced placement prospects.
- Holistic development: PESITM offers a combination of rigorous academics and extracurricular activities to shape well-rounded professionals.
- Career services: The Career Development Center (CDC) assists students with career development.

Infrastructure and environment

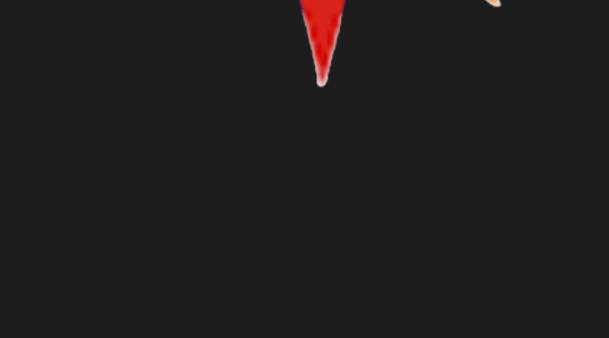

- Quality infrastructure: The college is known for its good infrastructure, including well-furnished classrooms, well-equipped laboratories, and a good library.
- State-of-the-art facilities: The campus offers a variety of facilities for both curricular and extracurricular activities.
- Discipline: The campus maintains a high level of discipline.
- Location: The campus is located away from the city, which provides a good learning environment.

Programs and opportunities

- Variety of programs: PESITM offers various undergraduate and postgraduate programs, including newly added courses like Artificial Intelligence and Machine Learning, Data Science, and Computer Science & Design.
- Industry-specific training: The institution provides extensive training in employable skills, with a high average placement record.
- Research and innovation: The institute has a focus on research, with some departments recognized as research centers by VTU.
- Extracurricular events: PESITM regularly conducts workshops, hackathons, and cultural fests to enhance student engagement and development.
